OR

COLOUR TEMPERATURE SELECTION

The Roystar downlight offers CCT technology, to allow you to adjust the colour temperature to suit your room. With two different models available, one adjustable by switch on the back of the fitting, and the other by your existing wall switch, the choice is yours.

INTERCHANGEABLE TRIMS

Change up your Roystar with optional coloured trims. Simply twist off and twist on a range of fashion colors to suit your decor. Available in flat or recessed styles.

QUALITY CONSTRUCTION

With a focus on excellent driver ventilation, a quality aluminium heat sink for heat dissipation, and including genuine Epistar LED chips, your Roystar downlight is built tough to light you well into the future.
